VELUX AIA Presentation

Emerging Toplighting Technologies

PRESENTATION DESCRIPTION

Throughout this course on emerging toplighting technologies, we will review the influencing factors impacting daylighting in commercial buildings and the emerging technologies in the unit skylight, monument/architectural skylight, and tubular skylight product categories. The course will focus on improving the natural lighting environments where people learn, work and socialize.

LEARNING OBJECTIVES

1. Discuss factors influencing the adoption of daylighting in building codes
2. Learn how technological advancements within the unit skylight category will
3. further increase energy savings, enhance interior aesthetics , reduce site-service issues and influence lighting design.
4. Learn how technological advancements within the monumental and architectural metal frame skylight category, as well as the tubular daylighting device category have reduced services issues, labor-saving solutions and better energy performance.
